

DURABLE ANTIMICROBIAL ACTION

Applying SHIELD ON transforms surfaces that are not regularly cleaned into longlasting antimicrobial shields.

A single application of SHIELD ON reduces time spent on regular cleaning and maintenance of surfaces. It eliminates mildew, reduces unpleasant odors, prevents microbial contamination as well as deterioration caused by bacteria, while prolonging the longevity of your surfaces.

SHIELD ON

A REVOLUTION IN THE WORLD OF BACTERIA AND MILDEW PROTECTION.

SHIELD ON is an all new antimicrobial product created by Constant America to help you maintain a cleaner and healthier working environment. Effective on any type of surface, SHIELD ON forms a thin coating, which acts as a protective barrier by reducing the presence and proliferation of microorganisms. The long-lasting invisible SHIELD ON layer protects your surfaces and prevents the appearance of gram -negative and -positive bacteria, mold and mildew, fungus, yeast, algae and dust mites.

SHIELD ON DEMONSTRATED AN AVERAGE MICROBIAL INHIBITION EFFECT OF

99.2% WHEN TESTED BY
INDEPENDENT MICROBIOLOGY LABORATORIES.

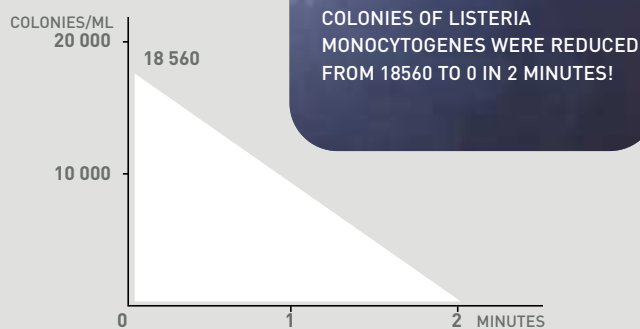

THE BEST PROTECTION AGAINST MICROORGANISMS. GUARANTEED

HIGH RATE OF MICROBIAL INHIBITION

MICROORGANISMS	INHIBITION (%)
Listeria Monocytogenes (gram-positive)	100
Aspergillus Niger (mold)	99.41
Staphylococcus Aureus (gram-positive)	99.26
Klebsiella Pneumoniae (gram-negative)	97.90

* Tested and approved, SHIELD ON is patent pending.

INCREDIBLE RESULTS, IN NO TIME!

With over 20 years of experience, Constant America, creator of SHIELD ON, is a leader in the field of industrial and commercial specialty chemicals.

SIMPLE EFFECTIVENESS

No other product adheres as safely and effectively as SHIELD ON. Simply spray surfaces that need protection to ensure optimal results.

SHIELD ON treated surfaces stay protected, even when wet. They can resist 50 high-pressure rinses and only detergents can remove the protective film as needed.

APPLY SHIELD ON WHEREVER YOU WANT

SHIELD ON prevents the spread of bacteria and mildew on various types of surfaces and can have numerous applications such as:

- Restaurants
- Food processing plants
- Hotels
- Fitness centers
- Hospitals, medical centers, dentists
- Cinemas, theatres
- Arenas
- Day-care centers
- Washrooms
- Sporting and outdoor goods
- Vehicle interiors
- Bedding
- Air filters
- Garbage containers
- Heating and air conditioning ducts
- Carpeting
